

Our company: **Sta*Ware EDV Beratung GmbH**

*Sta*Ware EDV Beratung GmbH*, which was set up in February 1998 by Christian Paucksch and Dr. Jörg Wever, grew out of *Christian Paucksch EDV Beratung*, founded in 1990. Sta*Ware GmbH continues to be wholly owned by its founders, who have run the business since it started.

Our product:

-> **Sta*Ware InfoCenter**

We focus on the development of integrated and innovative ERP (Enterprise Resource Planning) Software. We are continually adapting and extending it in line with market requirements, but we have a particular focus on the needs and demands of its customers: we guide you throughout, from choosing the appropriate system through complete implementation to long-term support. The Sta*Ware Software package stands out because of its consistent focus on projects and activities. One of its main characteristics is the clear and easy-to-handle allocation of important information to the appropriate users.

-> **from Email to project completion**

Our customers:

We mainly work with medium-sized enterprises. Many well-known companies from German-speaking countries and other parts of Europe have successfully implemented Sta*Ware Software. Through these projects, we have gained knowledge and experience in many areas:

- Architects, Engineering and Planning Offices
- Agencies and Management Consultancies
- Software Producers
- Manufacturers of Prefabricated Houses and Building Developers
- Certification Authorities
- Tax Consultancies
- Real Estate Management and Administration
